in Plastics Sustainability

## GRIPS Exhibitor Package

### **Global Research and Innovation in Plastics Sustainability 2021 - Overview:**

- When: 16th – 18th March 2021
- Where: Online
- How: Organised and run by KTN, supported by UKRI, hosted by UK Circular Plastics Network.
- Who: Aimed at researchers and innovators within the plastics, plastics packaging and persistent polymers (biodegradable) supply chain, including manufacturers of the materials as well as end users.
- Expecting 2000 visitors, 75 exhibitors & 100+ speakers

Global Research and Innovation in Plastics Sustainability is a conference, exhibition and showcase that will be held on 16th – 18th March 2021 online. It will bring together companies and individuals to highlight the best of the UK and selected international activities which will lead to plastics (including tyres, synthetic textiles and bio-based or compostable polymers) being less likely to reach landfill, end up incinerated, or become fugitive in the environment.

Research and innovation from both the academic and industrial community will be showcased. The event will provide a platform to help develop commercial success of these developments and build links within the polymer/plastics supply chain to strengthen the offer to UK and wider international actors in application sectors such as plastic packaging/FMCG, construction, agriculture, textiles, healthcare etc.

## GRIPS Exhibitor Package

### **Global Research and Innovation in Plastics Sustainability 2021 - Exhibitor Package:**

GRIPS 2021 is a virtual event for all those involved in the sustainability of polymers, plastics and elastomers. By exhibiting at the event you will raise your company profile and share your plastics sustainability offer to a wide global audience.

Our virtual event, like in-person exhibitions, can generate leads and help maximise your future business growth. Our online our event will work harder for your marketing budget than any other media. You can generate direct sales while simultaneously enhancing your brand image – launch new products, build your potential client database.

Exhibit with us and you will discover that having a presence at GRIPS2021 will give you exposure to a brand new audience – You'll simply be interacting in a virtual environment, rather than a physical location. Our events are highly interactive and give a similar look and feel to a physical event.

Cost:

**£149.00 + VAT**

## GRIPS Call for Abstracts

### **Global Research and Innovation in Plastics Sustainability 2021 - Benefits of Exhibiting:**

- Global visibility to plastics sustainability professionals
- Virtual Expo stand booth for 3 days
- Access information of delegates that attend your virtual stand
